Attention Ron De Groot

Re: Critical Sanitary Sewer Lining
Letter of Project Support

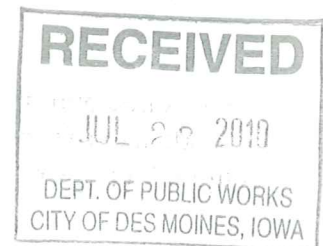

I am writing to you on behalf of the Beaverdale Neighborhood Association ("BNA") regarding the Critical Sanitary Sewer Lining Project. Our neighborhood was predominately developed in the late 1920's to 1930's. Many aspects of our infrastructure date back to that time period and are in need of repair.

The BNA is in support of the Critical Sanitary Sewer Lining project because many of the locations the city is looking at for this project are in our neighborhood. This project will provide an improvement to our sanitary sewer systems and help reduce future property damage in our neighborhood and help maintain our property values.

Sincerely,

Michael Kamper
Beaverdale Neighborhood Association President

Cc BNA Board

RE: Critical Sanitary Sewer Lining
Letter of Project Support

Dear Mr. De Groot:

The Waterbury Neighborhood Association (WNA) fully supports the proposed "Critical Sanitary Sewer Lining" project because it provides an improvement to the sanitary sewer system in our area and should reduce the potential for future property damage in the Waterbury neighborhood. Several neighbors within our boundaries have suffered from ruptured sewer lines, and the repairs are costly and time consuming. The WNA stands behind any efforts that the city wishes to put forth in order to improve our sewer infrastructure in a proactive manner.

Sincerely,

Bryan J. Bunton
Vice President
Waterbury Neighborhood Association Board of Directors

Re: Critical Sanitary Sewer Lining
Letter of Project Support

To Whom It May Concern:

The Waveland Park Neighborhood Association, chartered by the City of Des Moines, is very supportive of the Critical Sanitary Sewer Lining Project. The city's aging sanitary sewer system is in serious need of maintenance. This project will help reduce the potential for future property damage in the area. Thank you for your consideration.

Yours Truly,

Christine Pardee, Vice President
Waveland Park Neighborhood Association
